STIKKI WRITING PRODUCTS 

STIKKI Banners are an exciting new product enabling your artwork to be printed up to 50 METRES in length! And as with our STIKKI Posters, they are suitable for applying to windows, walls or fixtures, as adhesive can be coated on either front, back or both surfaces. When two sides are coated, the additional adhesive surface allows for further material, like photos or notes, to be attached to the banner surface.

STIKKI Banners are coated with water soluble adhesive and can be positioned and removed easily, without damage to most surfaces.
